## Personality and Relationships

Your personality affects your friendships in a variety of ways including . . .

- How you make decisions
- How you interact with your friends
- Why you are drawn to certain hobbies and social activities
- How you interact with other people
- The amount of time you want to spend with your friends
- How you value differences in your friends
- How you solve problems and resolve conflicts with your friends
- How seriously you take your commitments
- How you value diversity
